# **A Guide to Forest Tree Collections of Known Source or Parentage**

**in Northeastern and North Central  
United States and  
Adjacent Canadian Provinces**

A GUIDE TO FOREST TREE COLLECTIONS  
OF KNOWN SOURCE OR PARENTAGE IN NORTHEASTERN  
AND NORTH CENTRAL UNITED STATES AND ADJACENT CANADIAN PROVINCES

ed. - Raymond Guries, Susanne Brown, and John Kress

Department of Forestry  
University of Wisconsin  
Madison, Wisconsin 53706

UN. WIS. MADISON  
Agric. Res. Bull. R3142, Wis. Ag. Res. Sta.  
Expt.  
1980  
1981

This project was funded by a cooperative agreement (#42-289) between the U.S. Forest Service, Northeastern Area State and Private Forestry, and the Department of Forestry, University of Wisconsin. Dr. F. Deneke (USFS-S&PF) was instrumental in planning this guide and assisting with the development of questionnaires.

## INTRODUCTION

During the past generation, the number of plantations of trees of known origin or parentage has increased enormously in the northeast and north central regions of the United States and adjacent provinces in Canada. With this increase have come attendant problems of record keeping and maintenance. It has also become difficult for foresters, tree breeders, and others in related disciplines to keep track of the number and location of plantations that might contain useful materials for their programs. The purpose of this guide is to provide a listing of such plantations so that forest tree workers will be aware of, and hopefully able to utilize, this regional resource.

Although existing plantations may have a useful life of fifty years or more, the continual addition of new plantations, and elimination of old ones, requires periodic updating of files to maintain their usefulness for research and production operations. Such updating is most easily accomplished if listings are stored in a computer for easy retrieval and manipulation. A key feature of this guide is that all information used in its development is contained in a computerized database management system. Future revisions of this guide will utilize the present base, with additions and deletions incorporated as needed. The frequency of such revisions will depend upon the rate of plantation establishment and the perceived value of this guide to forest tree workers.

This guide is not the first to develop a listing of forest tree plantings of known source or parentage. Similar guides are available for the western United States and the states of Michigan and New Hampshire. References to these guides are provided below. We have not attempted to

provide listings of collections at the many arboreta located within the region, although we recognize that such collections may provide a valuable source of germ plasm for breeders.

Finally, we note that the present guide is somewhat incomplete. Approximately fifty percent of the agencies contacted responded to our questionnaire. Gaps existing in the guide hopefully will be filled during the next few years and a future version will provide the comprehensive listings desired for the region. Persons having information regarding plantations of known source or parentage are encouraged to complete copies of the questionnaire forms provided in Appendix E and return them to the senior author.

Stettler, R. F. and J. C. Cummings. 1973. A guide to forest tree collections of known source or parentage in the western United States and Canada. Bull. #3, Ecosyst. Anal. Stud., US/IBP, 59p.

#### HOW TO USE THE GUIDE

Plantations are listed in one of four categories:

- 1) Provenance tests;
- 2) Families of known parentage;
- 3) Clonal seed orchards, clone banks, or clonal tests;
- 4) Hybrid collections.

Assignment of a planting to one of these categories is usually straightforward, but occasionally a planting could be listed under more than one category. We have tried to assign plantings to those categories which, in the eyes of the originating or maintaining agency, most closely fit the intended purpose of the planting.

While most information presented for each planting is the same regardless of category, certain items unique to each category require that separate formats be used for each type of planting. Accordingly, a description of the information contained in each column for all entries is provided at the start of the listing for each category.

To maximize the amount of information provided for each entry, we have relied upon a series of codes to designate such items as species identification, contact person and maintaining agency, and references. The appendices at the end of the listings provide keys to these codes. Additional explanation may be found at the start of each category listing.

The basic sorting sequence followed for all categories was to sort first by species (using the U. S. Forest Service species codes; see Appendix A), then to sort alphabetically by state or country of planting location, and finally to sort alphabetically by county or provinance for all plantings of the same species. Alternative sorting sequences (e.g. by maintaining agency) can be provided; please contact the senior author.

#### PROVENANCE TESTS

A total of 478 provenance test plantings representing 37 conifer and 29 hardwood species were reported. Among the most widely planted conifers were balsam fir (32 plantings), white spruce (33 plantings), black spruce (26 plantings), jack pine (39 plantings), eastern white pine (30 plantings) and scotch pine (37 plantings). The hardwood provenance tests were dominated by black walnut (13 plantings), and various Eurasian elm species (19 plantings).

A major function of provenance testing has been the identification of the best seed sources for reforestation activities. Provenances assembled for testing usually represent a large part or an entire species range. Column 6 (Source Range) provides the latitudes and longitudes encompassed by each particular test. For those instances where a collection area was delimited by political boundaries, we have provided geographic coordinates as shown in a world atlas.

A large number of publications have been produced using data from these provenance test plantings, especially among the spruces and pines. Most of these publications have resulted from the extensive tests initiated by cooperators in the north central (NC-99) and northeastern (NE-27) regional tree improvement programs.

- Col. 1. Species designation (see Appendix A).
- Col. 2. State or country in which planting is located (postal code).
- Col. 3. County or province in which planting is located
- Col. 4. Plantation designation assigned by maintaining agency.
- Col. 5. Code number of maintaining agency (see Appendix C).
- Col. 6. Source range (in geographical coordinates).
- Col. 7. Size of planting (hectares).
- Col. 8. Year in which planting was established.
- Col. 9. Is plant material available (Y=yes; N=no; C=conditionally).
- Col. 10. Code for contact person at maintaining agency (see Appendix B).
- Col. 11. Are publications available (Y=yes; N=no) on materials in the planting, and references provided by cooperators (see Appendix D).
- Col. 12. Sorting code.

#### FAMILIES OF KNOWN PARENTAGE

A total of 341 plantings of families of known parentage representing 22 species of conifers and 22 species of hardwoods were reported. The conifer plantings were dominated by white spruce (29 plantings), jack pine (55 plantings), and eastern white pine (26 plantings). Among the hardwoods, yellow birch (24 plantings), black walnut (43 plantings), yellow poplar (20 plantings), and black cherry (20 plantings) were the species most reported.

Open-pollinated families (O) accounted for over 90 percent of the plantings, with half-sib families (H) a distant second. In fact, these two types may be synonymous in the eyes of many reporting agencies, but we have simply listed them as reported on the survey forms. Full-sib families (F) and selfed families (S) account for a very small proportion of the families included here. A number of agencies have included two types of families in the same planting in some instances and these are duly noted in Column 6 by a double letter designation.

A number of publications have been generated based upon data collected for some sets of plantations, notably balsam fir, white spruce, jack pine, red pine, and eastern white pine.

- Col. 1. Species designation (see Appendix A).
- Col. 2. State or country in which planting is located (postal code).
- Col. 3. County or province in which planting is located.
- Col. 4. Plantation designation assigned by maintaining agency.
- Col. 5. Code number of maintaining agency (see Appendix C).
- Col. 6. Type of family (O=open-pollinated; H=half-sib; F=full-sib; S=selfed).
- Col. 7. Number of families included in planting.
- Col. 8. Size of planting (hectares).
- Col. 9. Year in which planting was established.
- Col. 10. Is plant material available (Y=yes; N=no; C=conditionally).
- Col. 11. Code for contact person at maintaining agency (see Appendix B).
- Col. 12. Are publications available (Y=yes; N=no) on materials in the planting, and references provided by cooperators (see Appendix D).
- Col. 13. Sorting code.

#### CLONAL PLANTINGS

A total of 152 clonal plantings representing 20 species of conifers and 15 species of hardwoods were reported. Among the conifers, white and black spruce and jack, eastern white and scotch pine predominated. Of the hardwoods, poplar species, especially eastern cottonwood, accounted for over 75 percent of the listings.

Conifer clonal plantings were about equally divided among seed orchards (SO), clone banks (CB) and clonal tests (CT) (Column 6). Clonal tests dominated the hardwood plantings, especially the poplars. Of the 9 hardwood seed orchards reported, 5 were black walnut.

As most of these plantings serve production or clone bank functions, very few publications have resulted from research using these plantings.

- Col. 1. Species designation (see Appendix A).
- Col. 2. State or country in which planting is located (postal code).
- Col. 3. County or province in which planting is located.
- Col. 4. Plantation designation assigned by maintaining agency.
- Col. 5. Code number of maintaining agency (see Appendix C).
- Col. 6. Type of planting (SO=seed orchard;CB=clone bank;CT=clonal test).
- Col. 7. Size of planting (hectares).
- Col. 8. Year in which planting was established.
- Col. 9. Is plant material available (Y=yes;N=no;C=conditionally).
- Col. 10. Code for contact person at maintaining agency (see Appendix B).
- Col. 11. Are publications available (Y=yes;N=no) on materials in the planting, and references provided by cooperators (see Appendix D).
- Col. 12. Sorting code.

#### HYBRID PLANTINGS

A total of 130 hybrid plantings including crosses involving 27 conifer species and 20 hardwood species were reported. Spruces (35 plantings) and pines (62 plantings) accounted for the bulk of the conifer hybrid plantings, while the elms (14 plantings) represented about one-half of the hardwood plantings. Most entries involve interspecific hybrids of two species, with several three-species combinations reported. Intra-specific crosses involving different varieties or races were common in the pines and spruces. For all two-species combinations, the species which served as female is noted first.

With very few exceptions, crosses produced  $F_1$  families; in a few instances,  $F_2$  families, backcross (B) families, or open-pollinated (OP) families are noted in Column 6.

- Col. 1. Species designation ( $\text{♀} \times \text{♂}$ ).
- Col. 2. State or country in which planting is located (postal code).
- Col. 3. County or province in which planting is located.
- Col. 4. Plantation designation assigned by maintaining agency.
- Col. 5. Code number of maintaining agency (see Appendix C).
- Col. 6. Type of cross ( $F_1$ =first generation;  $F_2$ =second generation; B=backcross; OP=open-pollinated from  $F_1$  cross).
- Col. 7. Size of planting (hectares).
- Col. 8. Year in which planting was established.
- Col. 9. Is plant material available (Y=yes; N=no; C=conditionally).
- Col. 10. Code for contact person at maintaining agency (see Appendix B).
- Col. 11. Are publications available (Y=yes; N=no) on materials in the planting, and references provided by cooperators (see Appendix D).
- Col. 12. Sorting code.

979*	JAPANESE ELM	ULMUS JAPONICA	HP

Appendix B.

Two-letter codes and names and addresses of personnel responsible for each planting included in the guide.

- AI INGERSOLL ARNOLD  
CHIEF, STATE FOREST NURSERY  
DEPT. RESOURCE AND ECON. DEV.  
DIV. FORESTS AND LANDS  
P.O. BOX 856 CHRISTIAN BLDG.  
CONCORD, NH. 03301 USA
- BA WALTER BAGLEY  
PROFESSOR  
FORESTRY, FISHERIES&WILDLIFE  
THE UNIVERSITY OF NEBRASKA  
101 PLANT INDUSTRY EAST CAMPUS  
LINCOLN, NE. 68583 USA
- BB BURTON V. BARNES  
PROFESSOR  
SCHOOL OF NATURAL RESOURCES  
THE UNIVERSITY OF MICHIGAN  
SAMUEL TRASK DANA BUILDING  
ANN ARBOR, MI. 48109 USA
- BJ JAMES P. BARNETT  
STAFF OFFICER  
FORESTRY, FISHERIES, WILDLIFE  
TENNESSEE VALLEY AUTHORITY  
MORRIS, TN. 37828 USA
- BE WALTER F. BEINEKE  
ASSOCIATE PROFESSOR  
DEPT. OF FORESTRY AND CONS.  
PURDUE UNIVERSITY  
LAFAYETTE, IN. 47907 USA
- BW WILLIAM A. BERNDT  
FORESTER  
DEPT. OF NATURAL RESOURCES  
P.O. BOX 44, CENT. BLDG.  
ST. PAUL, MN. 55110 USA
- CK KNUD E. CLAUSEN  
PRINCIPAL PLANT GENETICIST  
USDA FOREST SERVICE  
NORTHCENTRAL FOREST EXP. STA.  
FORESTRY SCIENCES LAB, SIV  
CARBONDALE, IL. 62901 USA
- CM MARK V. COGGESHALL  
TREE IMPROVEMENT SPECIALIST  
VALONIA STATE NURSERY  
VALONIA, IN. 47281
- CP PAUL E. COLLINS  
ASSOCIATE PROFESSOR  
DEPT. OF HORT. AND FORESTRY  
SOUTH DAKOTA STATE UNIVERSITY  
BROOKINGS, SD. 57006 USA
- CA ARMAND G. CORRIVEAU  
RESEARCH SCIENTIST  
LAURENTIAN FOREST RES. CENTER  
P.O. BOX 3800  
SAINTE FOY, QUEBEC G1V 4C7  
CANADA
- CR RICHARD A. CUNNINGHAM  
RESEARCH GENETICIST  
NORTHERN GREAT PLAINS RES. LAB  
HIGHWAY 6 SOUTH  
P.O. BOX 459  
MANDAN ND. 58554 USA
- DA ANDRE L. D'AOUST  
CHERCHEUR SCIENTIFIQUE  
MINISTERE DE L'ENVIRONNEMENT  
P.O. BOX 3800  
SAINTE FOY, QUEBEC G1V 4C7  
CANADA
- DR RAYMOND E. DAVIS  
SENIOR FORESTER TREE IMPROVEM.  
N.Y. DEPT. ENVIRONMENTAL CONS.  
DIV. LANDS AND FORESTS  
50 WOLF RD.  
ALBANY, NY. 12201 USA
- DD DONALD DORN  
USFS  
ALLEGHANY NAT. FOREST  
P.O. BOX 847  
WARREN, PA. 16365 USA
- ER ROBERT T. ECKERT  
ASSISTANT PROFESSOR  
INST. NAT. ENVIRON. RESOURCE  
UNIVERSITY OF NEW HAMPSHIRE  
JAMES HALL  
DURHAM, NH. 03824 USA
- ED DEAN W. EINSPAHR  
DIRECTOR, FOREST BIOLOGY SECT.  
INSTITUTE OF PAPER CHEMISTRY  
P.O. BOX 1039  
APPLETON, WI. 54912 USA
- FD DAVID FRENCH  
PROFESSOR  
DEPT. OF PLANT PATHOLOGY  
UNIVERSITY OF MINNESOTA  
ST. PAUL, MN. 55108 USA
- GW WILLIAM J. GABRIEL  
RESEARCH PLANT GENETICIST  
USDA FOREST SERVICE  
NORTHEAST FOREST EXP. STA.  
P.O. BOX 968  
BURLINGTON, VT. 05401 USA
- GP PETER W. GARRETT  
FOREST GENETICIST  
USDA FOREST SERVICE  
NORTHEAST FOREST EXP. STA.  
P.O. BOX 640  
DURHAM, NH. 03824 USA
- GE JOHN R. GENYS  
CHAIRMAN  
ENV. AND ESTUARINE STUDIES  
UNIVERSITY OF MARYLAND  
INLAND ENVIRONMENTAL LAB  
COLLEGE PARK, MD. 20742 USA
- GJ JERRY GREBASCH  
FORESTER  
IOWA CONSERVATION COMMITTEE  
2404 S. DUFF AVE.  
AMES, IA. 50010 USA
- GR RAYMOND P. GURIES  
ASSISTANT PROFESSOR  
DEPT. OF FORESTRY  
UNIVERSITY OF WISCONSIN  
1630 LINDEN DR.  
MADISON, WI. 53706 USA
- HK KATHY HALE  
TREE IMPROVEMENT FORESTER  
STATE FOREST NURSERY  
STATE OF MAINE FORESTRY DEPT.  
RT.1 BOX 22A  
PASSADUMHEAG, ME. 04475 USA

HR RICHARD B. HALL  
ASSOCIATE PROFESSOR  
DEPT. OF FORESTRY  
IOWA STATE UNIVERSITY  
251 BESSEY HALL  
AMES, IA 50011 USA

HJ JAMES W. HANOVER  
PROFESSOR  
DEPT. OF FORESTRY  
MICHIGAN STATE UNIVERSITY  
103 NATURAL RESOURCES  
EAST LANSING, MI. 48824 USA

HE EDWARD HANSON  
PROJECT LEADER  
USDA FOREST SERVICE  
FORESTRY SCIENCES LABORATORY  
P.O. BOX 898  
RHINELANDER, WI. 54501 USA

HF FRANCIS W. HOLMES  
PROFESSOR  
DEPT. OF PLANT PATHOLOGY  
UNIVERSITY OF MASSACHUSETTS  
SHADE TREE LABS  
AMHEARST, MA. 01002 USA

HD DANIEL B. HOUSTON  
ASSOCIATE PROFESSOR  
DEPT. OF FORESTRY  
OHIO AG. RES. DEV. CENTER  
WOOSTER, OH. 44691 USA

HG J.A.G. HOWE  
SUPERINTENDENT  
TREE NURSERY DIVISION, PFRA  
INDIANHEAD, SASK. S0G 2K0  
CANADA

JM MARK M. JOHANNESSEN  
DIRECTOR OF TIMBER MANAGEMENT  
USDA-FOREST SERVICE-REGION 9  
633 WISCONSIN AVE.  
MILWAUKEE, WI 53706

JJ J. J. JOKELA  
ASSOCIATE PROFESSOR  
DEPT. OF FORESTRY  
UNIVERSITY OF ILLINOIS  
URBANA, IL. 61803 USA

KM M.A.K. KHALIL  
RESEARCH SCIENTIST  
NFLD. FOREST RESEARCH CENTER  
P.O. BOX 6028  
ST. JOHN'S, NFLD. ALC 5X8  
CANADA

KJ JEROME I. KLEIN  
RESEARCH SCIENTIST  
DEPT. OF THE ENVIRONMENT  
CANADIAN FOREST SERVICE  
5320 122ND ST.  
EDMONTON, AL.-T6H 3S5 CANADA

KD DONALD KNEZICK  
FORESTER  
P.O. BOX 4  
NEW LISBON, NJ. 08064 USA

KH HOWARD KRIEBEL  
DEPT. OF FORESTRY  
OHIO AG. RES. & DEV. CTR.  
WOOSTER, OH. 44691 USA

LY YVES LAMONTAGNE  
FOREST GENETICIST SDLR  
MIN. DES TERRES ET FORETS  
200 B. CHEMIN

PRINCIPAL PLANT GENETICIST  
USDA FOREST SERVICE  
FORESTRY SCIENCES LAB  
P.O. BOX 898  
RHINELANDER, WI. 54501 USA

VH DAVID F. VAN HAVERBEKE  
RESEARCH FORESTER  
USDA FOREST SERVICE  
ROCKY MTN. FOR. RANGE EXP.STA.  
UNIV. OF NEBRASKA EAST CAMPUS  
LINCOLN, NE. 68503 USA

SA ROBERT L. SAJDAK  
ASSISTANT PROFESSOR  
DEPT. OF FORESTRY  
MICHIGAN TECH. UNIVERSITY  
HOUGHTON, MI. 49931 USA

VP PHILIP VERRIER  
RESEARCH FORESTER  
DEPT. RESOURCE AND ECON. DEVELOP.  
DIV. OF FORESTS AND LANDS  
P.O. BOX 856  
CONCORD, NH. 03301 USA

SR RICHARD SCHANTZ-HANSEN  
FORESTER  
POTLATCH CORP.  
P.O. BOX 510  
CLOQUET, MN. 55720 USA

WR RONALD C. WILKINSON  
RESEARCH GENETICIST  
USDA FOREST SERVICE  
NORTHEAST FOREST EXP. STA.  
P.O. BOX 640  
DURHAM, NH. 03824 USA

SH HAROLD SCHOLTEN  
EXTENSION FORESTER  
COLLEGE OF FORESTRY  
UNIVERSITY OF MINNESOTA  
1530 N. CLEVELAND AVE.  
ST. PAUL, MN. 55108 USA

WI ROBERT D. WILLIAMS  
SILVICULTURIST  
USDA FOREST SERVICE  
NORTHCENTRAL FOREST EXP. STA.  
BEDFORD, IN. 47421 USA

SE E. B. SMALLEY  
PROFESSOR  
DEPARTMENT OF FORESTRY  
UNIVERSITY OF WISCONSIN  
1630 LINDEN DR.  
MADISON, WI. 53706 USA

WJ JONATHON W. WRIGHT  
PROFESSOR  
DEPT. OF FORESTRY  
MICHIGAN STATE UNIVERSITY  
EAST LANSING, MI. 48824 USA

SK KIM C. STEINER  
ASSISTANT PROFESSOR  
SCHOOL OF FOREST RESOURCES  
PENN STATE UNIV.  
UNIVERSITY PARK, PA. 16802 USA

TA ALDEN M. TOWNSEND  
RESEARCH PLANT GENETICIST  
USDA AG. RESEARCH SERVICE  
SHADE TREE LAB  
P.O. BOX 365  
DELaware, OH. 43015 USA

Appendix C.

Code numbers, agency names, and agency initials for those agencies maintaining plantations included in this guide.

CODE	AGENCY NAME	INITIALS
A001	AMANA SOCIETY	AMANA
A002	BLANDIN PAPER CO.	BLNDN
A003	BROWN COMPANY	BROWN

Appendix E.

Survey questionnaires for the four categories of plantations included in this guide. Additional copies of each questionnaire may be obtained from the senior author.

Northeastern Area-State & Private Forestry

Questionnaire for inventory of genetic material of forest trees

CLONAL MATERIAL

Please complete the following for each clone bank, orchard, or clonal test.

Species (sci. name) . . . . . . . . . . .

Criteria for parent or clonal selection? .

Are clones in the form of: root cuttings ( ) : grafted scions ( )

Number of ortets . . . . . Ave. Number of ramets/ortet . . . . .

Type of planting: clone bank ( ) : seed orchard ( ) : clonal test ( )

If seed orchard, present seed production: high ( ) : med. ( ) : low ( )

If none ( ); year expected . . . . .

Plantation information

Name or designation . . . . . Elevation . . . . .

Coordinates: Latitude . . . . . Longitude . . . . .

State . . . . . County . . . . . Acreage . . . . .

Ownership . . . . . Orig. Agency . . . . .

Loc. of records . . . . . Contact person . . . . .

Year established . . . . . Approx. age of parent trees . . . . .

Date of last measurements . . . . . Present survival % . . . . .

Original spacing (feet) . . . . .

Is material available to other agencies?

YES ( ) : NO ( ) : CONDITIONALLY ( )

Permitted type of sampling:

foliage ( ) : cuttings ( ) : seed ( ) : entire plant ( )

Publications on material available? YES ( ) : NO ( ); (if yes, list refs. on reverse)

Other comments: .

. .

Questionnaire for inventory of genetic material of forest trees

FAMILIES OF KNOWN PARENTAGE

Please complete the following for each type of family

Species (sci. name) . . . . .

Number of families . . . . .

Criteria for parent selection? . . . . .

. . . . .

Type of family : open-pollinated ( ) : selfed ( ) : half-sib ( ) : full-sib ( )

. . . . .

If not open-pollinated, what was mating design?

factorial ( ) : diallel ( ) : other . . . . .

nested ( ) : tester ( )

Type of planting: seed orchard ( ) : progeny test ( ) : other . . . . .

If seed orchard, present seed production:

High ( ) : medium ( ) : low ( )

if none ( ); year expected . . . . .

Plantation information

Name or designation . . . . . Elevation . . . . .

Coordinates: Latitude . . . . . Longitude . . . . .

State . . . . . County . . . . . Acreage . . . . .

Ownership . . . . . Orig. agency . . . . .

Loc. of records . . . . . Contact person . . . . .

Year established . . . . . Seedling age at yr. est. . . . .

Date of last measurements . . . . . Present survival % . . . . .

Original spacing (feet) . . . . . Trees/plot . . . . . # reps . . . . .

Are parents available? YES ( ) : NO ( ); Are seed from parents available

YES ( ) : NO ( )

Is material available to other agencies?

YES ( ) : NO ( ) : CONDITIONALLY ( )

Permitted type of sampling:

foliage ( ) : cuttings ( ) : seed ( )

Publications on material available? YES ( ) : NO ( ); (if yes, list refs. on reverse)

Other comments: . . . . .

PROVENANCE-TEST MATERIAL

Please complete the following for each provenance test.

Species (sci. name) .

No. of seed sources .

Range represented: Latitude N . . . . . S . . . . . Longitude E . . . . . W . . . . .

Plantation information

Name or designation .

Coordinates: Latitude .

State . . . . . County .

Ownership . . . . . . . . . Orig. Agency .

Loc. of records . . . . . Contact person .

Year established . . . . . Seedling age at yr. est. .

Date of last measurements . . . . . Present survival % . . . . . . . . . . . . . . . . .

Original spacing (feet) . . . . . Trees/plot . . . . . # Reps . . . . . . . . . . . . . . .

Are exact geographic sources identified YES ( ) : NO ( )

Are seed from parent trees still available; if so, by individual tree ( ), or  
YES ( ) : NO ( ) bulked lot ( )

Is material available to other agencies?

YES ( ) : NO ( ) : CONDITIONALLY ( )

Permitted type of sampling:

foliage ( ) : cuttings ( ) : seed ( ) : entire plant ( )

Publications on material available? YES ( ) : NO ( ); (if yes, list refs. on reverse)

Other comments (flowering, seed production, etc.) .

INTERSPECIFIC HYBRIDS

Please complete the following for each type of between-species cross. For such crosses, we wish to know only that the cross was made successfully; it is not necessary to indicate how many crosses have been made.

Parental species (sci. name) . . . . . (♀) X . . . . . (♂)  
(if 3 or 4 way cross) . . . . . (♀) X . . . . . (♂)

Type of cross  $F_1$  ( ) :  $F_2$  ( ) : backcross ( ) :

other . . . . .
