Howard B. Kriebel, Corresponding Secretary

Central States Forest Tree Improvement Committee

Ohio Agricultural Research and Development Center, Wooster, Ohio. 44691

OTHER RECENT PUBLICATIONS

"Interim Forest Tree Improvement Guides for the Central States" by G. A. Limstrom.

High on the list of objectives of the Central States Forest Tree Improvement Committee has been the development of guides for the selection of superior trees, best seed sources for planting, and the establishment of seed production areas and seed orchards. This publication, a product of cooperation from many members of the Committee and the Central States Forest Experiment Station, is the first of a series the Committee hopes to sponsor to meet their objectives. If you have not already received a copy of this publication, send in your request directly to The Director, Central States Forest Experiment Station, 111 Old Federal Building, Columbus, Ohio 43215, and ask for Research Paper CS-12."
