

TREE SEED PROGRAM IN ONTARIO

^{1/}
C. H. Lane

ABSTRACT .--The regeneration program in the province of Ontario requires large quantities of tree seed annually. It is estimated that 1 billion viable seeds will be required to meet the 1975 needs of the program. Forest tree improvement has been developed to effectively improve the availability of tree seed and to improve seed quality on a scale sufficiently massive to meet the requirements of the reforestation program.
